

POSTDOCTORAL FELLOWSHIP IN SYMPLECTIC GEOMETRY

Applications are invited for a Post-Doctoral Fellowship in Symplectic Geometry and related areas in the Department of Mathematics and Statistics at McMaster University. This fellowship provides an opportunity to spend up to three years engaged in research, with a limited amount of teaching, and is particularly suitable for talented mathematicians who have recently completed the Ph.D. To learn more about the department, please visit <http://www.math.mcmaster.ca>.

The Fellowship is open to candidates of any nationality, and selection will be based upon the candidate's research potential. Fellowship holders will work in the Geometry and Topology research group; research areas of particular interest are Symplectic and Algebraic Geometry, Group Actions, Representation Theory, and Algebraic Topology. The fellowship normally starts July 1, 2009, and the annual stipend is \$40,000 plus a \$2,000 grant for research expenses.

Candidates are required to apply for these fellowships by using the MathJobs website by January 5, 2009. See our advertisement at <http://www.mathjobs.org>.

Applicants should provide at least three letters of recommendation. At least one of these letters should report on the candidate's teaching abilities. Preferably these letters will be submitted through the MathJobs website (see above); they may also be sent directly to:

Dr. Megumi Harada
Department of Mathematics and Statistics
McMaster University
1280 Main Street West
Hamilton, Ontario L8S 4K1
CANADA

We appreciate all replies to this advertisement, but only applicants under consideration will be contacted. McMaster University is strongly committed to employment equity within its community, and to recruiting a diverse faculty and staff. The University encourages applications from all qualified candidates, including women, members of visible minorities, Aboriginal persons, members of sexual minorities, and persons with disabilities.
