The Mathematics Department at the University of British Columbia is seeking candidates for at least one Tier II Canada Research Chair, with a starting date of July 1, 2012. The successful candidate will have a PhD, normally obtained in the last ten years, and a record of world-class research accomplishments in mathematics, complemented by a record of high quality teaching. Priority research areas are algebraic geometry and probability. Exceptional candidates may be considered from existing or emerging areas of research excellence in the department. The CRC Tier II is at the level of a tenure-track Assistant or tenured Associate Professor. Salary will be commensurate with experience and research record. Details about the federal government's CRC programme can be found at: http://www.chairs.gc.ca. Additional details about department and university priorities are posted at http://www.math.ubc.ca/Dept/Jobs/priorities/.

Applicants are strongly encouraged to apply on-line as described at: http://www.mathjobs.org/jobs/UBC/ .

Alternatively, applicants may send a current CV including a list of publications, statement of research and teaching interests, a teaching dossier or similar record of teaching experience and supervision, and should arrange for three letters of recommendation to be sent directly to:

Chair, Departmental Committee on Appointments
Department of Mathematics, #121-1984 Mathematics Road
University of British Columbia
Vancouver, B.C., Canada, V6T 1Z2

Review of applications will begin on November 20, 2011.

All positions are subject to review and final approval by the CRC Secretariat. Canada Research Chairs are open to individuals of any nationality; offers will be made in accordance with Canadian immigration requirements associated with the Canada Research Chairs program. UBC hires on the basis of merit and is committed to employment equity. All qualified persons are encouraged to apply. We especially welcome applications from members of visible minority groups, women, Aboriginal persons, persons with disabilities, persons of minority sexual orientations and gender identities, and others with the skills and knowledge to engage productively with diverse communities.

The Department has strong connections with other mathematical institutes, such as the Pacific Institute for the Mathematical Sciences (PIMS), MPrime (Network of Centre of Excellence in the mathematical sciences), Banff International Research Station (BIRS), and the UBC Institute of Applied Mathematics (IAM).
