

AD for CRC2 in probability

The Mathematics Department at the University of British Columbia, Vancouver is seeking candidates for a Tier II Canada Research Chair, with a starting date of July 1, 2015. The successful candidate will have a PhD, normally obtained in the last ten years, and a record of world-class research accomplishments in mathematics, and will be expected to teach effectively at the undergraduate and graduate levels and to supervise graduate students. The priority research area is probability. Exceptional candidates may be considered from existing or emerging areas of research excellence in the department. The CRC Tier II is at the level of a tenure-track Assistant or tenured Associate Professor. Salary will be commensurate with experience and research record. Details about the federal government's CRC programme can be found at: <http://www.chairs.gc.ca>.

Applicants are strongly encouraged to apply on-line as described at:

<http://www.mathjobs.org/jobs/UBC/>

Alternatively, applicants may send a current CV including a list of publications, statement of research and teaching interests, a teaching dossier or similar record of teaching experience and supervision, and should arrange for three letters of recommendation to be sent directly to:

Chair, Departmental Committee on Appointments Department of Mathematics,
#121-1984 Mathematics Road University of British Columbia Vancouver, B.C.,
Canada, V6T 1Z2

Review of applications will begin on **December 1, 2014**.

All positions are subject to review and final approval by the CRC Secretariat. Canada Research Chairs are open to individuals of any nationality; offers will be made in accordance with Canadian immigration requirements associated with the Canada Research Chairs program. UBC hires on the basis of merit and is committed to employment equity. We especially welcome applications from members of visible minority groups, women, Aboriginal persons, persons with disabilities, persons of minority sexual orientations and gender identities, and others with the skills and knowledge to engage productively with diverse communities. All qualified candidates are encouraged to apply.

The Department has strong connections with other mathematical institutes, such as the Pacific Institute for the Mathematical Sciences (PIMS), the Banff International Research Station (BIRS), and the UBC Institute of Applied Mathematics (IAM). For more information see <http://www.math.ubc.ca>.
