

The Mathematics Department at the University of British Columbia is seeking outstanding candidates for one position, subject to funding, at the tenure-track Assistant Professor level, with a starting date of July 1, 2015.

The position requires a Ph.D. degree in Mathematics or a related discipline, Postdoctoral experience and an outstanding internationally recognized research track record, with publications in the top journals in the field. The priority research areas are Discrete Mathematics and Topology. Preference will be given to candidates whose research either fits with or complements existing departmental strengths. Exceptional candidates may be considered from existing or emerging areas of research excellence in the department. Joint positions with other departments may also be possible.

The successful applicant will be expected to work in an area of interest to current faculty, to interact with related groups in the Department and will be expected to teach effectively at the undergraduate and graduate levels with evidence of the ability or potential to do so. The successful applicant will supervise graduate students and obtain external funding. The salary will be commensurate with experience and research record. This position is subject to final budgetary approval.

Applicants are strongly encouraged to apply on-line as described at:

<http://www.mathjobs.org/jobs/UBC/>

Alternatively, applicants may send a current CV including a list of publications, statement of research and teaching interests, a teaching dossier or similar record of teaching experience, and should arrange for three letters of recommendation to be sent directly to:

Chair, Departmental Committee on Appointments
Department of Mathematics, #121-1984 Mathematics Road
University of British Columbia
Vancouver, B.C., Canada, V6T 1Z2

In order to ensure full consideration, applications should be received by December 1 2014.

The Department has strong connections with other mathematical institutes, such as the Pacific Institute for the Mathematical Sciences (PIMS), the Banff International Research Station (BIRS), and the UBC Institute of Applied Mathematics (IAM). For more information see <http://www.math.ubc.ca>.

The University of British Columbia hires on the basis of merit and is committed to employment equity. All qualified candidates are encouraged to apply. We especially welcome applications from members of visible minority groups, women, Aboriginal persons, persons with disabilities, persons of minority sexual orientations and gender identities, and others with the skills and knowledge to engage productively with diverse communities. Canadians and permanent residents of Canada will be given priority.
