LECTURER IN GRAPH THEORY

School of Mathematics and Statistics
Faculty of Science
The University of Melbourne, Australia

Salary: AUD95,434 - AUD113,323 p.a. plus 17% superannuation

The School of Mathematics and Statistics at the University of Melbourne is seeking to expand its expertise in graph theory.

The successful applicant is expected to undertake high-level research in graph theory. He or she should also have a strong commitment to teaching and supervision of research students. Teaching will occur within the School of Mathematics and Statistics undergraduate and MSc programs and the applicant will be expected to teach mathematics and its applications to a variety of audiences. The successful applicant is also required to supervise research students at undergraduate, MSc and PhD levels in graph theory.

The University of Melbourne provides a wide range of opportunities for exciting research collaborations within the School, wider University and externally. There will be the opportunity to undertake external consulting. The successful applicant will be expected to undertake administrative tasks for the School.

Employment Type: Full-time continuing position
