Lecturer Positions in Mathematics and Statistics

The Department of Mathematics and Statistics in the College of Arts and Science at the University of Saskatchewan invites applications for 4 one-year limited term faculty positions in the area of Mathematics and Statistics at the rank of Lecturer effective July 1, 2017.

Applicants should have a PhD in Mathematics or Statistics, or in a related discipline. The successful candidate will have a demonstrable capacity for high-quality undergraduate teaching and a dedication to teaching excellence. The applicant should have a record of excellent teaching with experience and demonstrated competence in undergraduate teaching in the mathematical sciences.

The successful candidate will be expected to teach six courses with an emphasis on foundational and service-oriented first and second year undergraduate courses in Mathematics/Statistics.
The Department offers undergraduate courses towards degrees in Applied Mathematics, Mathematics, Mathematical Physics, and Statistics, as well as several service-oriented courses for students in Commerce, the Life Sciences, and Engineering. In addition, Department members are engaged in research, interdisciplinary and international collaborations, curriculum improvement and development, community outreach and promotion of the Mathematical Sciences.   We welcome candidates whose professional interests overlap with those of the department.

The College of Arts & Science offers a dynamic combination of programs in the humanities and fine arts, the social sciences, and the sciences. There are over 8000 undergraduate and graduate students in the College and 325 faculty, including 12 Canada Research Chairs. The College emphasizes student and faculty research, interdisciplinary programs, community outreach, and international opportunities.

The University of Saskatchewan is located in Saskatoon, Saskatchewan, a city with a diverse and thriving economic base, a vibrant arts community and a full range of leisure opportunities. The University has a reputation for excellence in teaching, research and scholarly activities and offers a wide selection of undergraduate, graduate, and professional programs to a student population of over 23,000. The University is one of Canada's leading research-intensive universities.
