

Faculty of Science – Computer Science - competition number UOIT06-58

We invite you to consider joining UOIT's globally trained faculty as we further our reputation as a leading-edge learning environment and delivering innovative research. UOIT has a 21st-century vision of teaching and learning excellence. Our educational philosophy is to challenge, encourage innovation, and connect our faculty, students and the community, while respecting the best practice traditions of Canada's established universities.

The Faculty of Science offers an Honours Bachelor of Science degree program in Computing Science. The Faculty also offers Honours Bachelor of Science programs in Applied and Industrial Mathematics, Biological Science, Chemistry, Forensic Science and Physics, as well as Concurrent Education and Science programs in conjunction with UOIT's Faculty of Education. MSc programs in Modelling and Computational Science, Applied Bioscience, and Materials Science will be offered for student entry in Fall, 2007 (the latter two subject to governmental approval).

The Faculty of Science invites applications for a tenure-stream position in Computer Science at any rank. This position is subject to budgetary approval, and would start at a mutually agreeable time, but not later than July 2007. The successful candidate will be expected to conduct an active and innovative research program and to teach at the undergraduate and, eventually, the graduate level. In keeping with our technology-enhanced Mobile Learning environment, in which every student uses a laptop computer and all Science faculty members teach using a tablet computer, UOIT seeks faculty who strive to explore and develop new pedagogies. Applicants with research expertise in the areas of parallel and distributed computing or systems are particularly encouraged to apply, although all fields will be considered. Applicants should possess a PhD in Computer Science or an appropriate related field, a strong academic background, and a record of research excellence.

UOIT is an equal opportunity employer and welcomes applications from qualified women and men, including members of visible minorities, Aboriginal peoples and persons with disabilities. All qualified candidates are encouraged to apply; however, Canadians and permanent residents will be given priority.

Applications will be accepted until November 30, 2006 or until suitable candidates are found. Applicants should submit in electronic format, with their name and the above competition number in the subject line, a covering letter, a curriculum vitae including a list of publications, a statement of teaching interests, an outline of their present research program and a brief future research plan, and a list of at least 3 referees to careers@uoit.ca.
