The first conference (ICMSAO) was held in Sharjah, UAE in 2005, the second one was held in Abu Dhabi, UAE 2007 and the third one (ICMSAO'09) will be held in Sharjah, UAE January 20-22, 2009. The conference will provide a forum where engineers, scientists, and mathematicians from academia and industry can meet to share ideas of latest research work in all branches of Science and Engineering involving the modeling and simulation of processes and systems. The conference will be held on January 20 – 22, 2009 at the American University of Sharjah, Sharjah, UAE. Sharjah is 20 minutes from Dubai which is the home of the Dubai Shopping Festival, the largest in the gulf area that will be organized at the same time as the conference.

Prospective authors are invited to submit abstracts on topics related to, but not limited to, the following topics:

- Optimization and Control Theory
- Statistical and Probability Modeling
- Applied and Computational Mathematics
- Communication and Networking
- Simulation/Modeling in Engineering (Biomedical, Civil, Computer, Chemical, Electrical, Manufacturing, Mechanical, Oil/Gas, and other related areas)
- Robotics, Artificial Intelligence, Neural Network and Fuzzy Systems

A number of leading researchers in the field of simulation, modeling, and optimization will be invited to deliver keynote lectures.

Prospective authors should submit two pages extended abstract by e-mail to [icmsao@aus.edu](mailto:icmsao@aus.edu). The Abstract should clearly state the objectives, results and conclusions of the work undertaken and emphasize the novel aspects of the work. Contact information and affiliation of the corresponding author must be included.

Papers presented at the conference will be published in the conference proceedings. A maximum of six-page camera-ready manuscript of accepted papers should be submitted by the deadline mentioned below. Selected papers will be published in a special issue of a journal to be determined.

Proposals for half-day (3-hour) tutorials are solicited in areas related to the conference scope. Proposals should include the topic, expected background of participants, objectives, a short summary, and qualifications of the instructor(s).
