

McGill

Department of Mathematics and Statistics

The Department of Mathematics and Statistics invites applications for a tenure-track position in number theory, especially in relation to automorphic forms and/or arithmetic geometry. While the appointment is expected to be made at the level of an Assistant Professor, the Department would consider applicants for a senior position.

The candidate must have a doctoral degree at the date of appointment. They are also expected to have demonstrated the capacity for independent research of excellent quality. Selection criteria include research accomplishments, as well as potential contributions to the educational programs of the Department at the graduate and undergraduate levels.

Applications must include a curriculum vitae, a list of publications, a research outline, an account of teaching experience, a statement on teaching, and the names, phone numbers and e-mail addresses of at least four references (with one addressing the teaching record). Ideally, submissions and references should be made through MathJobs.Org, but they may also be mailed to:

Professor Henri Darmon
Chair, Number Theory Search Committee
Department of Mathematics and Statistics
McGill University
805 Sherbrooke Street West
Montreal QC H3A 2K6 Canada

The candidate must ensure that letters of reference are submitted either through MathJobs.Org or to the above address. Candidates are encouraged to include copies of up to three selected reprints or preprints with their applications.

To ensure full consideration, complete applications including letters of reference should be submitted by November 15, 2008. The search will continue until a suitable candidate is found; late applications may be considered.

McGill University is committed to equity in employment and diversity. It welcomes applications from indigenous peoples, visible minorities, ethnic minorities, persons with disabilities, women, persons of minority sexual orientations and gender identities and others who may contribute to further diversification. All qualified applicants are encouraged to apply; however, in accordance with Canadian immigration requirements, priority will be given to Canadian citizens and permanent residents of Canada.
