

# Mathematics Department University of Fribourg

## Opening

The Faculty of Science of the University of Fribourg (Switzerland) invites applications for an open position of a

### FULL PROFESSOR IN MATHEMATICS

starting 1. September 2011 or by arrangement.

We are seeking candidates with an internationally recognized research record in an area of **analysis and its applications**, for example *partial differential equations, global analysis, dynamical systems or calculus of variations* and proven ability to direct research of high quality. The future appointee is expected to lead the analysis group and to collaborate with the pure and the applied groups of the department.

Duties of the new professor include teaching of mathematics at undergraduate and graduate level, in particular in analysis. He or she will have to teach in French or German (if necessary after a convenient time of adaption), to become acquainted with both languages and to assume administrative duties.

Applications should include a curriculum vitae, a list of publications, a short outline of the current and planned research, a record of teaching experience and a record of past and present funding.

The Faculty of Science encourages female candidates to apply.

More information about the position, the application procedure as well as the Department of Mathematics, facilities and curriculum are available at [www.unifr.ch/science/positions](http://www.unifr.ch/science/positions).

#### Send applications to

Dean of the Faculty of Science  
University of Fribourg, P erolles
