The Mathematics Department at the University of British Columbia is seeking candidates for at least one Tier I or Tier II Canada Research Chair, with a starting date of July 1, 2012 or January 1, 2013. The successful candidate will have a PhD and a record of world-class research accomplishments with strong connections to another discipline. The CRC Tier 1 is a senior level position, at the rank of Associate Professor or higher. The CRC Tier 2 position is at the level of Assistant or Associate Professor. Normally a CRC Tier 2 candidate will have obtained a PhD in the last ten years. Candidates will have a record of high quality teaching. Salary will be commensurate with experience and research record. Details about the federal government's CRC programme can be found at: http://www.chairs.gc.ca. Additional details about department and university priorities will be posted by October 1, 2011 at (appropriate URL).

Applicants are strongly encouraged to apply on-line as described at:
http://www.mathjobs.org/jobs/UBC/ .

Alternatively, applicants may send a current CV including a list of publications, statement of research and teaching interests, a teaching dossier or similar record of teaching experience and supervision, and should arrange for three letters of recommendation to be sent directly to:

Chair, Departmental Committee on Appointments
Department of Mathematics, #121-1984 Mathematics Road
University of British Columbia
Vancouver, B.C., Canada, V6T 1Z2

Review of applications will begin on December 15, 2011.

All positions are subject to review and final approval by the CRC Secretariat. Canada Research Chairs are open to individuals of any nationality; offers will be made in accordance with Canadian immigration requirements associated with the Canada Research Chairs program. UBC hires on the basis of merit and is committed to employment equity. All qualified persons are encouraged to apply. We especially welcome applications from members of visible minority groups, women, Aboriginal persons, persons with disabilities, persons of minority sexual orientations and gender identities, and others with the skills and knowledge to engage productively with diverse communities.

The Department has strong connections with other mathematical institutes, such as the Pacific Institute for the Mathematical Sciences (PIMS), MPrime (Network of Centre of Excellence in the mathematical sciences), Banff International Research Station (BIRS), and the UBC Institute of Applied Mathematics (IAM).
