

Waterfront International

95 Wellington Street West
Suite 1900
Toronto, ON M5J 2N7

Quantitative Analyst

Waterfront International is a Toronto-based financial consulting firm, specializing in developing computer based statistical trading strategies. Waterfront's selective hiring process considers only highly talented individuals with a history of exceptional professional and academic achievement, and solid real-world experience.

Primary Responsibilities:

- Developing, testing and implementing quantitative trading models.
- Models will be based on quantitative data analysis rather than qualitative analysis.
- Research strategies in equities and other markets.
- Perform historical backtesting to determine optimal strategy parameters.
- Generate new indicator ideas.

Requirements of the Candidate include:

- PhD or Masters in physics, statistics, mathematics or operations research.
- Strong working knowledge of statistics.
- Must possess expert level C/C++ programming skills.
- Must be a strong self-starter and able to work well independently.

Compensation will include immigration and relocation assistance.
