

**University of Alberta**  
**Department of Mathematical and Statistical Sciences**  
**Assistant Professor - Statistics**

The Department of Mathematical and Statistical Sciences at the University of Alberta invites applications for a tenure-track position in the area of Statistics. Appointment at a higher level may be possible under exceptional circumstances. We offer an excellent research environment with a normal teaching load of 2.5 courses per year.

The successful candidate will establish his/her own research program, supervise graduate students, and teach Statistics at both the graduate and undergraduate levels. Applicants will have a PhD or international equivalent, demonstrated accomplishments and outstanding promise in research as well as a strong commitment to graduate and undergraduate teaching. A close fit with some of the existing research being presently conducted in the department is an asset. Our Statistics group encompasses a broad spectrum of research interests, ranging from such interdisciplinary areas such as Bioinformatics, Biostatistics and Environmetrics, through core research areas such as Design, Regression, Sampling and notions of Robustness and of Statistical Learning as applied to these and other areas, and on to theoretical investigations as embodied by Mathematical Statistics, Probability, and Stochastic Processes.

The University of Alberta has one of the leading joint Mathematics/Statistics departments in Canada and has strong connections with other scientific institutes, such as the Pacific Institute for the Mathematical Sciences (PIMS), Mathematics of Information Technology and Complex Systems (MITACS), and the Banff International Research Station (BIRS). For more information about the Department, please visit our websites at [www.mathstats.ualberta.ca](http://www.mathstats.ualberta.ca) and [www.stat.ualberta.ca/stat\\_centre/](http://www.stat.ualberta.ca/stat_centre/).

Applicants should submit their curriculum vitae, a research statement, a teaching profile outlining experience and interests, and at least three confidential letters of reference. Review of applications will begin November 14, 2011; however, the competition will remain open until filled. Early applications are encouraged.

Competition No.: **A113314929**

Closing Date: **Will remain open until filled.**

**Interested applicants may apply to:**

Professor Arturo Pianzola, Chair  
Mathematical and Statistical Sciences  
University of Alberta  
632 Central Academic Bldg  
Edmonton, AB T6G 2G1

All qualified candidates are encouraged to apply; however, Canadians and permanent residents will be given priority. The University of Alberta hires on the basis of merit. We are committed to the principle of equity in employment. We welcome diversity and encourage applications from all qualified women and men, including persons with disabilities, members of visible minorities, and Aboriginal persons.
