Assistant Professor of Statistics

The Department of Computer and Mathematical Sciences, University of Toronto Scarborough (UTSC) invites applications for a tenure-stream appointment in Statistics, at the rank of Assistant Professor. The appointment will begin on July 1, 2014.

The University of Toronto is an international leader in Statistics research and education. The Department of Computer and Mathematical Sciences enjoys strong ties to other centres of research in Statistics, Mathematics and Computer Science within the University. The successful applicant will be expected to establish a strong, externally funded research program, to actively contribute to the enrichment of undergraduate programs in the Department of Computer and Mathematical Sciences at UTSC, and to participate actively in the Graduate Department of Statistical Sciences at the University of Toronto.

Candidates in all areas of Statistics are encouraged to apply. Applicants should have a Ph.D. in Statistics or a closely related discipline by the date of appointment or shortly thereafter. They must demonstrate excellence in research, the ability to pursue innovative research at the highest level, and a commitment to excellence in undergraduate and graduate teaching. Salary will be commensurate with qualifications and experience.

All qualified candidates are invited to apply by clicking on the following link: https://www.mathjobs.org/jobs/jobs/5227.   Applications must include a CV, statements of research and teaching interests and three representative publications. Applicants should also arrange that letters of reference from at least three referees familiar with the candidate's research and teaching be sent through the Mathjobs website. If you have questions about the position, please contact Katheleene Smith in the Department of Computer and Mathematical Sciences.

Applications lacking reference letters will not be considered.
All materials must be received by **December 10, 2013.**

For more information on the research and teaching activities of the Department of Computer and Mathematical Sciences, please visit our webpage http://www.utsc.utoronto.ca/cms/

The University of Toronto is strongly committed to diversity within its community and especially welcomes applications from visible minority group members, women, Aboriginal persons, persons with disabilities, members of sexual minority groups, and others who may contribute to the further diversification of ideas. The University is responsive to the needs of dual career couples. The University of Toronto offers the opportunity to conduct research, teach, and live in one of the most diverse cities in the world. All qualified candidates are encouraged to apply; however, Canadians and permanent residents will be given priority.
