The Department of Mathematics in the Faculty of Arts and Science of the University of Toronto invites applications for a three-year limited term Coxeter Assistant Professorship. The expected start date of the appointments is July 1, 2015.

The University of Toronto is an international leader in mathematics research and education. The successful candidate for this position will be an active member of the Graduate Department of Mathematics at the University of Toronto.

We seek candidates with a recent Ph.D. who are pursuing independent innovative research at the highest international level, who would complement our existing strengths at the University of Toronto, and who have a strong commitment to teaching. Preference will be given to candidates with research expertise in geometry, including Riemannian geometry, symplectic geometry, Finsler geometry, integral geometry, and convex geometry.

Applicants should have a Ph.D. in mathematics by the time of appointment or shortly thereafter, must demonstrate excellence in research, and must show evidence of strength in teaching. Salary will be commensurate with qualifications and experience.

All qualified candidates are invited to apply through https://utoronto.taleo.net/careersection/10050/jobdetail.ftl?job=1402119.

Applications should include a C.V. including a list of publications, a research statement, and a teaching statement. Candidates should arrange to have at least four (4) letters of reference, including at least one primarily addressing the candidate's teaching, sent directly by the writers to mathjobs@math.toronto.edu.

To receive full consideration, applications should be received by November 17, 2014.

For more information, please see http://www.math.utoronto.ca/.
The University of Toronto offers the opportunity to teach, conduct research, and live in one of the most diverse metropolitan areas in the world. The University of Toronto is strongly committed to diversity within its community and especially welcomes applicants from visible minority group members, women, Aboriginal persons, persons with disabilities, members of sexual minority groups, and others who may contribute to the further diversification of ideas.

All qualified candidates are encouraged to apply; however, Canadians and permanent residents will be given priority.
