

Teaching Term Position in Computational Mathematics

Grenfell Campus, Memorial University of Newfoundland, has a population of more than 1,300 students and emphasizes innovative approaches to teaching and learning, research and engagement. Experiential learning, impactful research and strong community relationships are the hallmarks of Grenfell's profile.

The Division of Science at Grenfell Campus, Memorial University of Newfoundland invites applications for an 8 month teaching term position in Computational Mathematics beginning September 1, 2015 to April 30, 2016. This is a teaching term appointment and responsibilities of the appointee are restricted to teaching.

Computational Mathematics: The successful candidate will be expected to teach a range of mathematics courses in support of a B.Sc. major in Computational Mathematics, a minor in Mathematics, and a Mathematics stream within an interdisciplinary B.Sc. program in General Science. Duties may include teaching introductory courses in computer programming or statistics. Candidates should have experience teaching mathematics at a university level, and preference will be given to those with a Ph.D. (or near completion) in Mathematics.

Applications received before Friday, May 29, 2015 will be considered.

A letter of application, a curriculum vitae, teaching dossier (including evidence of teaching effectiveness and a sample course outline), and the names of three references should be sent to: The Associate Vice-President (Grenfell Campus) Academic, Grenfell Campus, Memorial University of Newfoundland, Corner Brook, NL, A2H 6P9. Telephone 709-639-6526; Fax 709-637-6218 or email associatevpoffice@grenfell.mun.ca

All appointments are subject to budgetary approval. Salary will reflect qualifications and experience in accordance with the Collective Agreement governing faculty at Memorial University of Newfoundland.

All qualified candidates are encouraged to apply; however, Canadians and permanent residents will be given priority. Memorial University is committed to employment equity and encourages applications from qualified women and men, visible minorities, aboriginal people and persons with disabilities.
