

Instructor Position in Engineering Mathematics and Internetworking

The Department of Engineering Mathematics and Internetworking at Dalhousie University invites applications for a one year limited term position at the rank of Instructor beginning July 1, 2018.

We seek an engaged and enthusiastic colleague to complement existing departmental strengths in engineering and applied mathematics teaching, outreach, and professional service.

The successful candidate must have a Master's degree in Engineering Mathematics or a related discipline and must have demonstrable experience in teaching undergraduate engineering mathematics courses in calculus, computer programming, linear algebra, differential equations, and numerical methods.

Experience in teaching large undergraduate courses is required.

Registration as a Professional Engineer or Engineer in Training is required.

Qualified candidates are invited to email their applications, as a single PDF file, to Bill.Robertson@dal.ca by June 15, 2018. Applicants should include a 1-page cover letter, that summarizes their qualifications, curriculum vitae, the names and contact details of 3 references, and a completed Self-Identification Questionnaire, which is available at www.dal.ca/becounted/selfid.

All qualified candidates are encouraged to apply; however, Canadians and permanent residents will be given priority. Dalhousie University is committed to fostering a collegial culture grounded in diversity and inclusiveness. The university encourages applications from Aboriginal people, persons with a disability, racially visible persons, women, persons of minority sexual orientations and gender identities, and all candidates who would contribute to the diversity of our community.

For a more detailed overview of the department please see its website at www.engmath.dal.ca.
